COMPOSITE MANHOLES

REPLACEMENT COMPOSITE COVERS ARE DESIGNED TO LAY INTO AN EXISTING FRAME. ADA COMPLIANT NON SKID SURFACE COVERS ARE POLYESTER RESIN REINFORCED WITH FIBERGLASS. RATED FOR H-20 SINGLE POINT WHEEL LOADING FOR VEHICLE TRAFFIC UNDER 25MPH. MADE IN THE USA.

REPLACEMENT COVERS

A lightweight solution for heavy-duty traffic. Our closed mold injection systems produce durable and lightweight covers that are rated for H-20 wheel loading and designed to last!

Our covers are polyester resin reinforced with fiberglass, are 1" thick and include (1) one stainless steel recessed handle for easy lifting.

Choose from diameters of 39-1/4" or 44-1/4".

SIZE	MODEL	A	B
40"	F-39.25X1	39.25"	1"
45"	F-44.25X1	44.25"	1"
